

**Flowers are the heart of many weddings.** A couple chooses them carefully, because they represent so much -- a feeling or desire for their marriage, a favorite color that brings joy, a graceful form that speaks to their hearts.

I have long created floral wedding portraits that have been received as treasured heirloom gifts. Artwork displayed in a family's home is both appreciated daily, and loved for a lifetime.

Whether you are the bride, the groom, or a special person in their lives, I will work with you to create a memorable gift capturing the heart of their wedding -- the flowers. Imagine the joy your favorite couple will feel receiving a unique, original work of art -- theirs alone, to keep forever.

**The Creative Process:** Provide me with at least one clear photograph of the prominent flower in the wedding. I will faithfully reproduce the image by drawing it in pencil and then painting it on fine quality archival watercolor paper.

I will paint the background as it appears in the photo, or we can mutually select a background color and theme that are significant to the happy couple.

You may choose the **Title** of the Artwork. If you choose, I will hand write the title along with my signature at the bottom.

The **Finished Artwork** is a 9" x 12" original watercolor. Custom matting and framing are available as well.

**Timing:** Please allow me four to eight weeks to complete your unique original artwork.

**Ownership:** My work is copyrighted; therefore, I am the only person who can reproduce it. I retain the right to use your image in promotional material, but will not sell your purchased image to other individuals without your permission.

**Pricing:** \$275 for original watercolor.

**Prints** are special gifts for the Mother of the Bride, Mother of the Groom, or members of the Wedding Party. Please allow one to two weeks after the original is completed for these giclee-style images of your artwork to be produced.
